

**robot coupe®**

*Automatic Juicers*

*J80 Ultra – J100 Ultra*

*Bars – Takeaway Outlets – Restaurants – Hotels – Canteens – Juice Bars*

## ***Product Benefits:***

Patented automatic feed tube with a diameter of 79 mm for continuous throughput

### **High power, low noise levels**

The powerful, resilient commercial-grade motor operates at a speed of 3.000 rpm, meaning that the **juice oxidizes less quickly**. The resulting juices are particularly smooth and bursting with flavour. The noise levels of the J80 Ultra are so low that it can be used right in front of the customer.

### **Usable height of the machine**

The spout height of 162mm for the J80 & 256 mm for the J100 allows for a large glass or a collection jug to be placed directly underneath.

### **Ejection chute**

Allows the continuous flow of waste directly into the pulp collector. (J100 Ultra only)

### **Large capacity pulp collector**

The pulp collector of 6.5 lt (7.2 lt for J 100 Ultra) fits perfectly under the discharge chute to avoid splashing on the countertop.

Removable (no special tool required) stainless-steel basket for quick and easy cleaning

### ***Technical Characteristics:***

## **J80 Ultra**

Power: 700 Watts

Voltage: 230V AC, 10amp

Speed: 3000rpm

High Clearance: 162mm

### ***Dimensions:***

Height: 505mm

Width: 235mm

Depth: 535mm

## ***Technical Characteristics:***

### **J100 Ultra**

Power: 1000 Watts

Voltage: 230V AC, 10amp

Speed: 3000rpm

High Clearance: 256mm

## ***Dimensions:***

Height: 596mm

Width: 235mm

Depth: 538mm
